SUMMARY

Design leader with 16+ years turning complicated business ideas into usable products and leading the people who build them. Focus on AI-native and agentic enterprise experiences, design systems and building design capability. Has led teams of up to 30 designers, hired 200+ designers across organisations, and led a 250+ member design community.

SELECTED IMPACT

- Agentic order confirmation (SAP): turnaround from weeks to hours, a human-led agent across 33 screens.
- Engaze HCM companion: 90% CSAT in the employee-experience module.
- Airline mobile experience: engagement up 92%, add-on sales up 50x, check-in from 9 steps to 2.
- Enterprise network management app: 70,000+ customers and a client-reported $5M saving.
- Data products marketplace: 76% adoption.
- AI search in the design system: scaling across 15,000+ products.

Figures come from data shared by the project stakeholders.

EXPERIENCE

Design Leader (User Experience Manager), SAP Labs

Aug 2024–Now

Harmonising enterprise product experience across SAP products. Evangelising the value and power of design while unifying experiences coherently across products.

- Lead of SAP Design Hub India since February 2025, a 250+ member community of designers, and Lead Curator of Impulse India.
- Core Design work with customers on forward-deployed design: agentic procurement, AI search in the design system and the Suite-first direction.
- Guided 10 interns through building GenAI capability in 2024; they went on to full-time roles.

User Experience Manager, Accenture Song

Dec 2018–Jul 2024

Design leader and UX consultant across strategy, research and interaction design. Founding member of the Generative AI and Conversational AI design capabilities at the studio.

- Led the UX practice across B2B and B2C, with direct reports ranging from 6 to 30 and project teams of 15 to 40.
- Led experience strategy and the pod delivery model for an airline mobile programme, and hired 200+ designers across teams over the career.

Staff Product Designer, Hewlett Packard Enterprise

Dec 2015–Dec 2018

Drove design for a suite of cloud offerings: user-friendly interfaces for cloud platforms, coordination across internal and external teams, and guidance for new designers.

- Led UX initiatives for the GreenLake cloud platform and contributed to the Grommet design system.
- Set up DesignOps, Design Hiring and local Communities of Practice.

Creative UX Lead (Founding UX Lead), Photon Interactive

Jul 2014–Dec 2015

Designed for e-commerce clients, including research and analytics, while fostering design culture.

Senior UX Designer, Infosys Limited

Jan 2011–Jul 2014

20+ client engagements delivering simple UIs and research artefacts, across the full UX cycle.
