Six-Month AI Roadmap Tracker

Plan six months of capability building, month by month, with owners and signs that it is working.

How to use it. Fill it in at the start, then update it at the end of each month. The aim is a steady climb, not a leap. Change the plan when the evidence says so.

1. Where we start and where we aim

The level we are at today
From the assessment

The level we aim for in six months, and why it is realistic
Moving up one level in six months is a strong result. Two is rare.

2. Month by month

MONTH	FOCUS	ACTIONS	DELIVERABLE	OWNER	SUCCESS INDICATOR
Month 1					
Month 2					
Month 3					
Month 4					
Month 5					
Month 6					

3. Roles and rituals

ROLE OR RITUAL	WHO	HOW OFTEN	WHAT IT PRODUCES

ROLE OR RITUAL	WHO	HOW OFTEN	WHAT IT PRODUCES

4. Risks

What could stall us, and what we will do about it
Time, tools, trust, rules, leadership attention

> Avoid learning theatre: workshops that nobody applies. Every month should end with something used in real work.
