AI Usage Charter Worksheet

What is safe, what needs a check and what is off limits, shaped by the constraints of your sector.

How to use it. Agree this with the team, your legal and security partners and your own leader. Short and clear beats long and ignored. Put it where people work.

1. Principles we hold

- [ ] A person is accountable for every output, whoever or whatever made it
- [ ] We say when AI shaped the work
- [ ] We protect user, client and company data
- [ ] We look for bias and exclusion before we ship
- [ ] A person decides at every high-stakes step
- [ ] We respect the rights and licences of what we use
- [ ] We can explain how a piece of work was made
- [ ] We review this charter on a fixed date

2. What our sector asks of us

Write the constraints that apply to you, and the rule you set for each. Banks, public bodies and health organisations will have more to write here.

CONCERN	WHAT IT MEANS FOR OUR WORK	THE RULE WE SET
Data that may never enter a tool		
Approved tools only		
Explanation and audit trail		
Accessibility and inclusion		
Human oversight		

3. Green, amber and red

ZONE	WHAT BELONGS HERE	RULES THAT APPLY
Green: use freely		
Amber: use with a check

ZONE	WHAT BELONGS HERE	RULES THAT APPLY
Red: do not use		

4. Where we look, across the work

STAGE	THE QUESTION WE ASK	WHO CHECKS	EVIDENCE WE KEEP
Before we start			
While we make it			
Before we release			
After release			

5. Register of tools

Include AI features inside tools you already use. For each, note what it may touch and what it costs, including the time to review its output.

TOOL	OWNER	DATA IT MAY TOUCH	APPROVED? (YES, TRIAL, NO)	COST AND RENEWAL DATE

6. Law, guidance and ownership

The laws and guidance that apply to us

Ask your legal partner. Rules and dates change, so note the date you checked.

Who owns this charter, and when we review it

A name and a date

> This worksheet is a design aid, not legal advice. Have your legal and security partners confirm the rules for your region and sector.
