WORKSHEET · LEADING DESIGN · ELEVATING DESIGN QUALITY

Design Excellence Health Check

A quarterly look at the five pillars and the two horizons, so leadership can see where to invest.

How to use it. Complete it each quarter with your leadership team. Rate from what you can show, then agree three decisions.

1. Rate each pillar

PILLAR	RATING (1 TO 5)	WHAT WE SEE	WHAT WE WILL DO
Design quality			
Consistency and harmonisation			
Excellence reviews and release assurance			
Future forward and experience innovation			
Collaborative practice			

2. The two horizons

Protecting today: how well are we doing it?
Quality, consistency, release readiness

Creating tomorrow: how well are we doing it?
Foresight, experiments, adoption

3. A quick check

- [ ] Every significant release is reviewed to a stated standard
- [ ] Reviews use a shared rubric and record decisions
- [ ] Someone has time set aside to look at what comes next
- [ ] Experiments are allowed to fail, and we learn from them
- [ ] Teams share what they learn across products

4. Next quarter

Three decisions we will make
One of them should be about tomorrow
