North Star Experience Canvas

Turn an opportunity into a future experience that people can understand at a glance.

How to use it. Fill it in at the start of an exploration. Write short, plain answers. If it needs a long explanation, it is not ready.

1. The canvas

Opportunity
What are we trying to improve or reinvent?

Target user
Who benefits from this future experience?

Current experience
What happens today?

Future experience
What should happen instead?

North Star principle
What fundamental belief drives it?

Key capabilities
What technology or capabilities enable it?

Experience journey
How will it unfold?

Expected impact
What changes for customers or the business?

Key assumptions
What must be true for this to work?

2. The test

- [ ] Someone can understand it without a long explanation
- [ ] It describes a future experience, not a feature
- [ ] The assumptions are written down
- [ ] It connects to a real customer problem
