WORKSHEET · LEADING DESIGN · ELEVATING DESIGN QUALITY

Feature Excellence Review

The reviewer's scorecard: score a feature on twelve criteria and record a clear decision before release.

How to use it. Use it before a feature is released. Choose the review level first, score from evidence, and record the decision, the deviations and who owns what.

1. The feature

Feature or initiative

Product and team

Design owner

Target release

2. Review level

- ☐ Standard review
- ☐ Experience review
- ☐ Excellence review

3. Score the criteria

EVALUATION CRITERION	SCORE (1 TO 5)	REVIEWER OBSERVATIONS
Problem clarity and customer value		
Task flow and usability		
Interaction quality		
Visual craft		
Content clarity		
Accessibility		
Scenario and edge-case coverage		
Design-system adherence		
Cross-product consistency		
Technical feasibility		
Implementation quality		
Customer validation

4. The decision

- [ ] Approved
- [ ] Approved with actions
- [ ] Rework required
- [ ] Escalation required

5. The record

Critical issues identified

Required improvements

Accepted deviations and rationale
Who accepted them, and why

Decision owner, next review and release clearance

> Critical usability, accessibility or security-related issues are not waived because a deadline is close.
