Goal Cascade and Metrics Worksheet

Turn an organisational goal into team goals, then into individual goals that overlap with what each person wants.

How to use it. Work from the top down. Start with the organisation, end with one person, and check the person's aspiration at the bottom.

4. Check each goal against SMART

Answer each in a few words: what makes it specific, how it is measured, why it is within reach, what it serves, and by when.
